

Phase 1 — Python Basics (Functions, OOP, Files, Modules, venv, Jupyter)

1. Functions and recursion

- Rishabh Mishra – *Python Tutorial for Beginners in Hindi | Complete Python Course (Part 1)*
https://www.youtube.com/watch?v=wloM0N_IMaw

2. Object-oriented programming (classes, inheritance, polymorphism)

- Great Learning – *Learn Python Programming in Hindi* (OOP section: classes, inheritance)
<https://www.youtube.com/watch?v=eTyI-M50Hu4>

3. File handling and exception handling

- Amit Thinks – *Python Full Course in Hindi* (File I/O and exceptions sections)
<https://www.youtube.com/watch?v=b97WsOM9BYg>

4. Modules, packages, pip

- Amit Thinks – *Python Full Course in Hindi* (Modules section)
<https://www.youtube.com/watch?v=b97WsOM9BYg>

5. List comprehensions, generators, decorators

- Rishabh Mishra – *Python Tutorial for Beginners in Hindi | Complete Python Course (Part 1 & 2)*
https://www.youtube.com/watch?v=wloM0N_IMaw

6. Virtual environments (venv)

- Saumya Singh – *Python Full Course 2026 | Beginner to Advanced with AI Projects* (environment setup part)
<https://www.youtube.com/watch?v=AHio9NZozYQ>

7. Jupyter Notebook / Google Colab basics

- Great Learning – *Python Tutorial & Full Course for Beginners in Hindi* (NumPy/Pandas/Matplotlib sections use Jupyter-style demo)
